WORK EXPERIENCE

iOS Developer

Apzzo Technologies Private Limited | April 2024 - Present

- Designed and developed high-performance iOS applications using Swift and SwiftUI, delivering visually engaging, user-friendly interfaces for a seamless experience.
- Ensured app stability and performance by resolving client-reported issues, conducting thorough debugging, testing, and managing version control.
- Translated complex requirements into efficient, scalable code while simplifying user interactions.
- Demonstrated strong problem-solving skills, resolving client-reported issues and improving app stability.
- Researched and integrated Shopify APIs and REST APIs in development projects to enhance functionality, optimize performance, and improve system communication.

EDUCATION

Master of Computer Applications

Dr.MGR Education & Research Institute, Chennai (2021-2023) | CGPA: 7.58

Bachelor of Computer Applications

Apollo Arts And Science college, Chennai (2017-2020) | CGPA: 7.28

HSC

St. Georges Anglo Indian Higher Secondary School, Chennai | Percentage: 64% (2017)

SSLC

St. Georges Anglo Indian Higher Secondary School, Chennai | Percentage: 79% (2015)

PROJECTS

KlinikQ Health (Electronic Clinical Management System)

- Developed a Swift-based electronic clinical management system, streamlining hospital operations by digitizing patient records, doctor schedules, and payment handling.
- Implemented payment processing with Razorpay and push notifications to alert doctors and patients about upcoming appointments, cancellations, and important updates.

POINTERUP (E-commerce App Builder)

- Developed a no-code drag-and-drop mobile app builder in SwiftUI, enabling businesses to create custom e-commerce apps effortlessly. Designed reusable components and managed state efficiently with Combine.
- Integrated Firebase for crash analytics and push notifications.
- Enabled real-time UI customization, allowing users to modify screen templates, components, text, colors, images, fonts, and sizes effortlessly without developer intervention.

ECADEMICTUBE (Study Partner Chat App)

- Developed a WhatsApp-like chat application in Swift for students and tutors, enabling real-time communication and collaboration with secure messaging, multimedia support, and a seamless user experience.
- Integrated Socket.IO for seamless messaging and optimized performance for efficient learning interactions.

CERTIFICATES

Internship in Python Programming (08/2022 - 10/2022)

Organization Name : DLK Technologies PVT Ltd

Certification in Java Fundamentals (02/2024)

Issuing Organization : IBM

Certification in Core Java (03/2024)

Issuing Institute : Softlogic Systems - Chennai
